Olive Oil Tasting

Vassilakis Estate, Neapoli – Lasithi

The story of the Vassilakis family olive business is interwoven with the history of the *Mirambello Valley*. It begins more than 150 years ago when the first *Manolis Vassilakis* realized his vision to build a “fabrica” (olive mill) to press the olives harvested from the millennium-old trees of his olive grove.

He searched the area for just the right stone, a huge millstone, and with the help of several men rolled it for days over the uneven ground up the hill to *Agia Sophia* village. The stone olive mill was one of the first in the valley, producing life-giving olive oil for the family and their little community for many years. They welcome thousands of visitors every summer from all over the world. In response to popular demand, they offer many guided tours and unique tasting experiences. The distance from Blue View Villas to Vassilakis Estate is 16.8 km or 10.43 miles.
