

Sandy Beaches

Stalida Sandy Beach, Stalis

Stalis (or Stalida) is located 30km east of Heraklion, between Malia and Hersonissos. From a small seaside village set up by the residents of Mochos, Stalis today is a popular tourist resort merged with Malia town.

The famous long sandy beach with shallow water, breaks in two by a short rocky cape. The beach is very well organized with umbrellas, lifeguards, beach volley courts, showers, beach bars, water sports, changing rooms, and generally anything for a memorable beach holiday. In the evenings, the heart of Stalis pounds on the 5km long coastal road. A walk there is a must!

The walking distance from Blue View Villas to Stalida Sandy Beach is 1.54 km or 0.95 miles.

Saradari Beach, Hersonissos

The Coves of Hersonissos (Limanakia) are located 27km east of Heraklion, starting from Cape Sarandaris and continuing to the east till the harbour of Hersonissos. They are really beautiful beaches with calm water because Cape Sarandaris protects them from the frequent northwest winds. Access to all coves is easy and the surrounding area is well developed.

On the base of the Cape Sarandaris, you'll find the amazing beach of Sarandaris Cape, maybe the nicest and mostly protected (from winds) beach in Hersonissos area. It is a sandy beach with shallow water and vivid blue colors. The beach is not as crowded as the rest beaches; climbing down the steep stairs from the whitish limestone cliffs is a bit tricky. There is a small sea cave formed in the whitish limestone at the north end of the beach.

The distance from Blue View Villas to Saradari Beach is 5.14 km or 3.19 miles.

Voulisma Beach, Agios Nikolaos

This half-moon-shaped Blue Flag beach in eastern Crete boasts fine, soft sand and warm, pristine waters and is one of the most popular beaches in the area.

Here, you can go jet skiing, swim with fish, or rent a lounge chair and umbrella for a lazy day at the beach. To get to the beach, you can park at the top of the seafront cliffs and then walk down a flight of stairs.

You'll find a bunch of snack bars above the beach, too.

The beach is often a stop along day tours that include nearby sights like the Richtis Gorge, the ancient olive tree and the late Minoan settlement of Azorias.

The distance from Blue View Villas to Voulisma Beach is 45.3 km or 28.15 miles.

Potamos Beach, Malia

The main beach of Malia is located in front of the town and is crowded by thousands of people. Thus, those who cannot stand the crowds and congestion prefer to go to one of the sandy beaches located east of the port of Malia, very close to the site of the palace of Malia.

The easternmost beach is known as Potamos (i.e., River), because a small stream flows in its east part, next to the wetland of Malia.

Potamos is a long sandy beach, very well organized, but usually less crowded than the main beach of Malia. The region, particularly its east part, is not developed due to the archaeological site.

However, in the west of the beach, there are several hotels with small sandy coves in front of them.

The distance from Blue View Villas to Potamos Beach is 5.0 km or 3.11 miles.

Divin, for the Adventurous
